
CALCULUS I

Instructor:	Dr. Vince Matsko
Office Hours:	MW 11:45–12:45, T 2:00–3:00, second floor of MPC
Class Times:	MWF 10:40–11:40, Cobb 122
Email:	matskovj@eckerd.edu
Website:	www.vincematsko.com
Text:	<i>Elementary Calculus</i> , by Michael Corral

Course Description: We will cover the content in Chapters 1–5 in the text. We will investigate the concepts of differentiation and integration, and their close relationship to each other.

Course components:

- **Homework:** Problems will be assigned on a daily basis. Roughly each week, a homework quiz will be given. For a homework quiz, you may bring your notebook. All entries in your notebook must be handwritten – you cannot staple additional papers in your notebook – but you may write as much as you like in your notebook. There will be a few problems which are identical in form to problems from your homework, but with some slight variation (perhaps just the numbers or functions changed). These quizzes are given at the beginning of class, and arriving late will simply mean you have less time to complete the quiz. No extra time will be given if you are late.

Dates for homework quizzes are all Fridays: September 16, 30; October 7, 14, 28; November 4, 11; and December 2.

There are 8 homework quizzes. No make-up quizzes will be given. However, your lowest quiz score will be dropped.

- **In-class assessments:** There will be three in-class exams and a Final Exam. The Final Exam will not be entirely cumulative; it will cover all material since the third exam and some additional topics from earlier in the semester. These topics will be given to you before the Final Exam.

Exam dates are Friday, September 23, Friday, October 21, and Wednesday, November 16. For each exam, the preceding class period will be used as an in-class review. The date for the Final Exam is Monday, December 12, 11:30–2:30. You must arrange your end-of-semester travel so that you are present for the Final Exam.

If you already know you cannot make one of the exams, you must send me an email by Friday, September 16, explaining the situation so we can make alternative arrangements. Otherwise, there are no make-up exams. If you miss an exam for any reason, your Final Exam will count for the relevant percentage of your course grade.

- **Course materials:** All homework assignments, quizzes, exams, and solutions, etc., will be posted on the instructor's website. Moodle will be used for posting grades. Please use my Eckerd email address to get in touch with me; do not message me in Moodle, as I do not monitor those messages closely.

Attendance: You are expected to be in class every day. Simply put, you'll get out of your college experience what you put into it. While in class, you should be paying attention – not texting or sleeping. Cell phones should never ring, and should never be visible. When quizzes or exams are given, no extra time will be given to a student who arrives late. Just maintain a comfortable classroom environment where everyone can learn as much as they can.

Grading policy:

The course components are weighted as follows:

Course component	Percentage
Attendance	10%
Homework quizzes	25%
First Exam	15%
Second Exam	15%
Third Exam	15%
Final Exam	20%

Withdrawals and Incompletes: The last day to withdraw from the course is Friday, November 11. If you plan to withdraw from the course, it is your responsibility to complete the necessary paperwork by this date. You will not be allowed to withdraw after this date.

Academic Honesty: As a member of a community of scholars, each student is expected to abide by this statement: "On my honor, as an Eckerd College student, I pledge not to lie, cheat, or steal, nor to tolerate those behaviors in others."

Contingency Policy Statement: If for any reason, class delivery is interrupted, students should continue their studies. And if Eckerd College is evacuated, students who leave campus for stays of overnight or longer should bring their texts, notes, and syllabus so that they are ready to continue their course work. In the event of any interruption to classes, check your Eckerd email from your on- or off-campus location and continue with the course work according to the syllabus.
